

VOLUNTARY PRODUCT ACCESSIBILITY TEMPLATE (VPAT)

For Section 508 Accessibility Compliance

Section 1194.22 Web-based Internet Information and Applications

Criteria	Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content)	<u>YES</u>	_____
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation	<u>N/A</u>	<u>No Multimedia is present on the Allen website.</u>
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup	<u>YES</u>	_____
(d) Documents shall be organized so they are readable without requiring an associated style sheet	<u>YES</u>	_____
(e) Redundant text links shall be provided for each active region of a server-side image map	<u>N/A</u>	<u>No image maps are used.</u>
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape	<u>N/A</u>	<u>No image maps are used</u>
(g) Row and column headers shall be identified for data tables	<u>YES</u>	_____
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers	<u>YES</u>	_____
(i) Frames shall be titled with text that facilitates frame identification and navigation	<u>YES</u>	<u>Subsidiary site uses frames for one section.</u>
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz	<u>YES</u>	_____
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes	<u>N/A</u>	<u>Not required.</u>
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology	<u>N/A</u>	<u>scripting to toggle or display content is not used on this website.</u>
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l)	<u>Yes</u>	<u>Adobe Acrobat is used to facilitate document standarization. A link to the Acrobat reader is provided.</u>

(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues	<u>N/A</u>	<u>No forms are used directly on the website.</u>
(o) A method shall be provided that permits users to skip repetitive navigation links	<u>Yes</u>	<u>First link, top left, "skip navigation" will take the user to the start of that pages content.</u>
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required	<u>N/A</u>	<u>No timed responses</u>
